EXPERIENCE

Junior Engineering Intern | Syzy Technologies Pvt Ltd, Salem **Jan 2026 – Jul 2026**

FlowFlux – Enterprise CRM and Business Management Software | *React.js, TypeScript, GraphQL, AWS, Vitest*

- Built and maintained React and TypeScript components for CRM modules, integrating GraphQL APIs through AWS AppSync.
- Worked with AWS Lambda, AppSync, DynamoDB, Cognito, IAM, CloudWatch and CloudFront.
- Authored 40+ unit, integration and end-to-end tests using Vitest and React Testing Library, improving test coverage across CRM modules and catching regressions before deployment.

Grand Vekasa Hotel Official Website | *Next.js, SEO*

- Developed and optimized the hotel website in Next.js with a focus on SEO to improve search ranking and engagement.
- Used AI coding tools (Codex, Antigravity IDE, Kiro IDE) to accelerate development, and used Playwright, Figma Make and Stitch AI to build automations and prototype UI.

PROJECTS

ZIP-RAG – Multi-Format Offline RAG System **Jan 2026 – Apr 2026**

React, Python, FastAPI, FAISS, LangChain, Ollama, sentence-transformers

- Developed a full-stack application with a React frontend and FastAPI backend for real-time document querying.
- Built an offline RAG system delivering document-grounded answers with no cloud dependency.
- Designed a FAISS and sentence-transformers semantic search pipeline over large documents and ZIP files.
- Ran local LLM inference (Llama 3 and Mistral via Ollama) for fully private, offline responses.

Personal Learning Management System **Feb 2025 – Jun 2025**

MongoDB, Express.js, React.js, Node.js (MERN)

- Developed a full-stack learning management system to centralize notes, tasks, goals and roadmaps.
- Built responsive React.js components and RESTful APIs supporting secure CRUD operations and efficient data retrieval.
- Integrated JWT authentication and global search for secure access and fast navigation across all modules.

Online Wholesale Shop Management System **Dec 2023 – Apr 2024**

Java, MySQL, Eclipse

- Developed a Java application to manage inventory and day-to-day wholesale operations.
- Implemented CRUD operations with MySQL-backed persistence for product and order management.
- Structured the code for maintainable business logic and clean database interaction.
